The Passenger and Power Company contended that the Traction Company was at fault, and the evidence caused Justice Crutchfield to think the same way. There were charges and counter charges, and in the opinion of the Justice each charge was sustained. He fined the Traction Company \$10 in three cases and the Passenger and Power \$10 in two cases.

The charge that the Traction Company was using unsafe fenders on some of its cars was shown to have been untrue, and that case was dismissed.

The outcome of the proceedings resulted in an agreement between the two companies to meet with Justice Crutchfield. HEART DISEASE.

Some Facts Regarding the Rapid Inerease of Heart Troub'e.

Heart troubles, at least among the Heart troubles, at least and Americans, are certainly increasing and while this may be largely due to the excitement and worry of American business life, it is more often the result of weak stomachs, of poor digestion,

Real organic disease is incurable, but not one case in a hundred of neart trouble is organic. -The close relation between heart trou-

ble and poor digestion is because both organs are controlled by the same great nerves, the Sympathetic and Pneumogastrie.
In another, way, also the heart is affected by the form of poor digestion, which causes gas and fermentation from half digested food. There is a feeling of oppression and heaviness in the chest caused, by pressure of the distended stomach on the heart and lungs, interfering with their action, hence arises palpitation and short breath.

Poor digestion also noisons the blood,

Poor digestion also poisons the blood, making it thin and watery, which irritates and weakens the heart.

The most sensible treatment for heart trouble it to increase. rouble is to improve the digestion and to

insure the prompt assimilation of food.

This can be done by the regular use after meals of some safe, pleasant and effective digestive preparation, like Staurt's Dyspepsia Tablets, which may be found at most drug stores, and which contain valuable, harmless digestive elements in a pleasant, convenient form. It is safe to say that the regular persistent use of Stuart's Dyspepsia Tablets at meal time will cure any form of stom-ach trouble except cancer of the stomach. It is heroic for a woman to suffer in silence but a study of her face in the looking-glass must convince her it is not possible to hide her trouble. These pictures represent the faces of millions of women who are suffering today. They suffer in silence, but the lines and crow-tracks show that pain—the pain nearly always caused by "female troubles"—is there. Do you expect to suffer the agonies of female ills every month during your life? If you do suffer, it will be because you choose to suffer. Did you ever stop to consider how little effort you are making to secure health? Do you really want to be well? No woman has made every effort to gain health, when she has not tried Wine of Cardui. Female troubles wear out the life of a woman. Menstrual pain so shatters her nervous system that she is often brought near to the asylum or to the grave. These frightful alternatives are the almost inevitable results of prolonged suffering. Every woman should understand that deranged menses cause headaches, backaches, nausea and derangements of the stomach, bowels and kidneys. Wine of Cardui stops all this by regulating the menses and strengthening the figaments which hold the womb in place. This pure Wine has completely relieved 1,000,000 women of menstrual pain, giving them strong nerves and rugged health. This medicine has demonstrated that it is not necessary for a
